

Ruben Dsouza

Data & Business Analyst

Mumbai, Maharashtra, India | +91 9769377541 | officialrubendsouza@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Business Analyst with 2+ years' experience in data governance, validation, and BI at Nielsen Media, focused on turning large, messy operational datasets into reliable, decision-ready systems. Built and deployed a self-designed Gemini-based automation workflow that cuts manual review time by ~20 hours per week, and personally audits ~19,000 records every 6 months with full resolution of flagged discrepancies. Comfortable working across SQL, Python, and Power BI, with hands-on experience applying LLM-based tools to reduce manual data operations.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Data Analytics & BI:** SQL (extraction, filtering, joins), Python, Power BI, Looker Studio (Google Data Studio), Advanced Excel, Data Modeling, Trend & Regional Sales Analysis
- **AI & Automation:** Self-built Gemini automation workflows, Google AppSheet, Claude Code, LLM-assisted data workflows, Prompt Engineering
- **Data Governance:** Data Quality Assurance, Manual Auditing & Verification, Process Redesign, Risk Mitigation, Cross-Functional Coordination
- **Knowledge & Process Management:** Google NotebookLM, Process Mapping & Documentation, Vendor Relations

PROFESSIONAL EXPERIENCE

Reference Data Analyst — Nielsen Media

Nov 2024 – Present

- Designed and personally built a Gemini-based automation workflow to validate reference data records, reducing manual review time by ~20 hours per week and improving overall data reliability.
- Extracted, filtered, and validated large-scale datasets using SQL queries to deliver actionable insights, directly supporting data-driven decision-making for core product teams.
- Audited ~19,000 reference data records over 6 months, systematically identifying and resolving all flagged discrepancies through manual verification, maintaining data reliability for downstream product teams.
- Identified and eliminated duplicate content to establish clean relational links, improving data consistency across platforms and accelerating content discovery.
- Contributed to redesigning the data validation BAU process, helping identify and exclude unnecessary data from the audit scope — reducing the dataset requiring manual review by ~50%.
- Coordinated with the software team to resolve data-related issues, working through the process team to align with product requirements throughout the workflow.

Marketing Data Analyst — Ego Premium Private Limited

Jul 2023 – Oct 2024

- Analyzed regional and city-level sales data to identify market trends, generating insights that directed targeted marketing campaigns and optimized resource allocation.
- Partnered with cross-functional teams to align data insights with social media content development, driving seamless campaign execution and audience engagement.
- Coauthored data-driven sales strategies and tracked campaign performance metrics, driving a 15% measurable improvement in overall campaign effectiveness.

Communications Support Associate / Management Intern — Curiosum Tech Private Limited

Feb 2019 – Jun 2023

- Administered a database of 1,000+ membership profiles and maintained a 15,000+ subscriber mailing list, ensuring data hygiene and streamlined corporate communication.

- Spearheaded process improvement initiatives across IT and internal operations, boosting data workflow speed and documentation accuracy.
- Managed vendor relations and executed strict job portal verification processes to uphold data security and organizational compliance standards.
- Coordinated on-ground event operations for major initiatives including Formula Bharat 2020 and 2022, enhancing logistical and execution efficiency.

EDUCATION

- Bachelor's Degree in Management Studies (BMS) — SIES College of Management Studies, India (2020 – 2023)
- Higher Secondary School Certificate (Commerce) — Aryan Junior College (2017 – 2020)
